FREE DELIVERY
up to 200km radius, to the nearest major centres

Please bring this catalogue to the sale and be sure of having one!
SALE INFORMATION

- **Location:** By Road: “Truro” is 33 kms east of Bellata on the Berrigill Creek Road.

- **Airstrip:** Suitable for light aircraft with strip 1km in length with landing only from the North. Use by prior arrangement only.

- **GST** is to be added onto the purchase price at the fall of the auctioneer’s hammer. You will be invoiced purchase price plus GST.

- **Rebate:** 3% rebate will be offered to outside Agents introducing buyers in writing 24 hours prior to the Sale & attending the sale with client.

- **Inspection** may be arranged prior to sale by contacting the vendors or selling agents. Inspection from 10am on Sale Day.

- **Delivery:** We offer free delivery up to 200kms, to the nearest major centres. Delivery can be given at the completion of the sale. All care will be taken of the cattle prior to delivery however no responsibility is accepted.

- **A Buyer’s Instruction Slip** must be completed by the Purchaser or representative and handed to the Auctioneers prior to leaving the Sale. No verbal instructions will be accepted.

- **Insurance:** There is no vendor insurance on sale bulls. It will be the responsibility of the purchasers to insure their bulls. WFI Insurance will be in attendance at the sale and can offer insurance terms on sale bulls.

- **Fertility:** Bulls will be semen tested and soundness inspected prior to the Sale.

- **Health:** All bulls have been treated with:
  - 2 x 5in1, 2 x Vibriovax and 2 x Pestigard.
  - TB & CAB – All bulls are TB and CAB confirmed free.
  - Truro has a Biosecurity Plan in place.

BBQ lunch available, with all proceeds going to the Bellata Public School P&C.
On offer will be 34 dehorned Hereford and Poll Hereford bulls and 27 “Select Stud Matrons”. All bulls for this year’s sale are once again semen tested, evaluated for soundness & vaccinated twice with Pestigard, 5in1 & Vibriosis. We are very commercially focussed at Truro, running approximately 250 stud cows at “Truro” and 250 commercial cows at “The Glen”, and strongly believe that cattle must perform in all conditions and without constant supervision. All bulls and females retained for breeding purposes are born unassisted and all heifers that are 300kg or greater on September 1st are joined to calve as two year olds.

The bulls show the breeding programme we have been working towards for the last 30 years. They are easy doing, big, strong and robust, display good muscle expression, with balanced EBVs, have good skin and hair, and have great temperaments. Sires represented include: Yarram Unique F181 (H), H Victor 0136 (P), Truro Holey Dooley, Tummel Ventriloquist, Truro He Da Man and Tummel Young Gun. All sale bulls are offered with full Breedplan figures. Their Breedplan figures reflect the do-ability and performance that the Truro cattle are renowned for amongst commercial bull buyers. When averaged, this draft of bulls are above breed average for milk, EMA, IMF and 600 Day growth. We are working hard to increase EMA and IMF and breed modern high calibre cattle.

We are thrilled to have acquired a new sire, Centennial Anzac L055 (P), who will be a terrific asset to our programme and is in the top of the breed with +5.0 for EMA and +1.8 for IMF, along with very balanced figures and structure.

We are very excited about using him this year, along with Merawah Highlight E62, Yarram Unique F181 and Dalkeith Joey, and look forward to calving commencing very soon.

We are very pleased to offer a selection of “Stud Matrons” this year. They will be on display on sale day and then offered online until Friday 28th July at 5pm. They are either PTIC or have a calf at foot and are the old proven matrons from our herd. The cows include our number one donor cow, Courallie Y149 Princess Christian A216, Truro Daffodil C009 (Reserve Senior Champion Female at Sydney Royal 2010) and Truro Marianne B052 (dam of Truro Gittoe who has bred so well).

Although selection of the correct cattle is vital we believe that the integrity of a person, and their business, is the key to their success and longevity. We thank you for your interest in our cattle and look forward to seeing you on July 24th at “Truro”. We are open every day and welcome visits whenever best suits you.

Still can’t believe we have this bull at Truro. Undoubtedly, one of the best breeding bulls in the country. Great carcass and do ability in these cattle. Low birth, high growth, high IMF and positive in their calving ease data. Exceptional skin and hair and temperament with beautiful structure.
Holey Dooley was purchased in 2014 by Tummel Hereford Stud. We loved the bull and his pedigree so much we bought half the bull back. He is breeding exceptionally well and we will continue to use this sire.
His sons are big and bold with an absolute tonne of muscle. Look at the carcase data on these bulls. Victor daughters are in milk and look sensational.
### TRURO HE DA MAN (H)

**Identifier:** JDHH034  
**Date of Birth:** 3/7/2012

**SIRE:** GLENDAN PARK EMPIRE E002 (AI) (ET) (H)

At Truro we use and believe in Breedplan and utilise this tool as a useful guide to assist in the management and selection of cattle for your breeding programme.

Breedplan is a performance evaluation programme that compares bulls “on a level playing field” for a number of commercially important traits.

The difference between a bull’s genetics and the breed benchmark for a range of traits is reported as an Estimated Breeding Value (EBV) – an estimate of how a bull will perform as a parent rather than how he looks on the day.

The EBVs in this catalogue are Hereford Group Breedplan EBVs and are not relevant to other breeds.

EBVs are calculated from the available performance information on the animal, its parents, progeny and its close relatives within the breed.

The information is adjusted for age, dam age and for differences between herds, years, season of calving, management effects and heritability of the trait.

### The Breed Averages for 2015 Born Calves are:

All cattle have been weighed, scanned and assessed in accordance with Hereford Group Breedplan.

Every stud calf born is physically weighed and birthweight recorded.

It must be noted that we cannot guarantee the accuracy or heritability of the figures and that they are only an Estimated Breeding Value not a Guaranteed Breeding Value.

Remember your eyes are still your best tool!

The Group Breedplan EBVs contained in this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither Herefords Australia Limited nor the ABRI oversee or audit the collection of this data.

For detailed explanations of each EBV please view www.breedplan.une.edu.au/index.php

Great skin and hair. Soft as butter. Lots of volume and thickness. Very balanced data. Terrific growth and milk and great EMA at +3.9 (top 15% of the breed) with positive fats and IMF.
Typical Victor, great definition of muscle and really solid and beautifully made. Fantastic Breedplan data low birth, high growth, high milk and EMA of +5.3 putting him in the top 4% of the breed.

Another calf that may be suitable for heifer joining at +3.5 for birth. Top 15% of the breed for EMA and IMF.

Purchaser ___________________________ Price ___________________________
Great skin and hair here and a very balanced calf to finish the sale on. High milk at +17, very good carcase at +4 for EMA with positive fats and IMF.

Purchaser ________________________________ Price ____________________
Welcome to the new age of selling livestock in Australia and “Happy Bidding”

**How to register with Elite Livestock Auctions**

2. Click on the “Sign Up” page / link.

3. Create a bidding profile using the bidder registration page. (You can either register as a livestock agent, company or private buyer.)

5. Click “Register”.

6. You will then be notified by email that an account has been created.

7. Once an account has been created you are all “Set to Bid”.

8. Each auction can then be viewed by clicking “Live Auction” logo on the Elite Livestock Auctions website.

9. Once you receive email notification that your account has been created please go to the sale you wish to bid at and click “Request to Bid”.

10. The sale agents will then approve your application to bid and on the sale catalogue you will see “Approved Bid Request”.

11. On Sale day simply login, click “Enter Auction” on the catalogue page and you can start bidding. (There is no need for software download).

12. At the completion of the auction, invoicing will be carried out as per your registration details by the Selling Agents.

Purchaser ___________________________ Price __________________
DONT’ VACCINATE WITHOUT
MULTIMIN®

A rapid top up of trace minerals through Multimin Injection has been shown through various peer reviewed studies to improve the immune function of cattle. Cattle concurrently treated with Multimin, at vaccination, produced a significantly higher and/or faster antibody response compared to untreated animals1-5. For a number of diseases, this may provide the animal with improved resistance.

Multimin Injection for Cattle is a chelated 4-in-1 ‘trace mineral injection that can significantly increase liver trace mineral levels as quickly as 24 hours’. The speed of absorption makes Multimin the ideal product to give a rapid health response, especially when used in conjunction with an existing oral nutrition program.

5. Enhanced Water Productivity and Immunity - Trial Protocol S72-15
